“ I never met Arlene in person, but I spoke with her on the phone almost every day for the last two weeks or so of her life. She was caring for my blind 96-year-old mother-in-law, who has a history of terrorizing her helpers and kicking them out the door. Arlene was different. I don't know how she did it, but she somehow charmed my mother-in-law into actually liking her! She had a calmness and kindness that came across in my phone conversations with her, and I thought she was wonderful. We family members felt incredibly lucky to have her assistance, especially while we're not allowed to visit the home ourselves. When we heard of her passing, we were stunned and deeply saddened. I can only imagine how difficult this must be for you family members, and I offer you my heartfelt condolences. You lost an angel who touched our lives, too.
