“ To Carleen's family-

Carleen was an incredible, "get it done" person that impacted so many people at HHS, NIH. We were fortunate to call her a colleague and friend.

We were blessed to have her in our lives and I can't imagine the full impact she had with you.

Thank you for sharing Carleen with us.

“ Carleen, My condolences to your family on their loss. I will truly miss our late evening conversations about our Grands, Kids, and Mothers. I remember you kept saying all week how happy you were and nothing was going to change your attitude.

You are going to be missed in many ways by all. May you rest in peace. You did a great job here on earth and will be blessed always.

“ Carleen, Your sudden departure has caused us all to think about how precious this life is, and how, despite what is going on in this world, what truly matters is how we treat each other and how we care for and love each other. I know you loved your family because of how you spoke about them, but you also loved your work family, and it showed in how you treated and cared for us. Losing you so suddenly also causes us to remember that God breathes life into us and determines when it is time for us to return home to Him. May God provide your family with peace and comfort during this difficult time.
