JM

“ I am so very sorry I am not there to help with all the hugs and comfort that I can give to the family at this time, but you are in my prayers as I so deeply regret that I did not get to talk to her one more time to let her know that I relly loved her and missed her humurous converstions. When we spoke of death she always said we will see each other on the other side. My love is with you all.
