“ *Dieudonné anc I grew up in New Bell Douala. We went to Lycee Joss high school and to university of Yaoundé. He was one of best student of our generation. We were like brothers. I visited him in DC a few times. Nice, smart, always smiling. He always called me Vic and we wouldvtalk in a mixture of French and bagangte tribal language. He was a close friend since we were teenagers. Long road we travelled, fun history together. A part of me is gone! I will miss him so much! RIP Doc! See u again when my time comes. You were a soul brother to me! An intellectual band wise man. Great family man. My son Hollywood wishes u a good journey to Heaven!* ”

NO

*Doctor B. Still can't believe you are gone. Our paths crossed when life was unpromising for me. You became my instructor, confidant, big brother and a friend. Our love for soccer cemented our friendship. You were a good man. Good in the real sense of it. You believed in try again and again and again. You said "never give up". I know you are in a better place. We miss you, the heavens needed you. Continue to rest in peace.*
