“ *Tasha, Words cannot express the deep grief I felt in my soul when I heard that you had taken your life. I am so sorry for your pain. I prayed for you often and hoped very much that you would discover God's divine purpose for your life. I will remember our talks about God, how you said you loved going to your grandfather's church and how much you respected your pastor. I know you had a special way with children. I saw it when you played with my grandson. I know your nieces, nephews and godchildren will miss you very much and your mom too. I am praying for your family. I hope to see you in heaven one day! Love, Ms. Walsh*
