GH

“ I did an internet search for my longtime friend Rick Godek. I was saddened when I read that he passed back in 2018. I first met Rick when we were both hired as Flight Attendants at Western Airlines in 1978 in Los Angeles. He moved on to other airlines finally landing at American. We had lost contact over the years but I never forgot him. We had so much fun in LA and then again in Miami where he moved to after his West Coast stint. He had a heart of gold and would do anything to help someone. It is hard to believe he has been gone nearly 5 years as of this writing but I truly hope that he has continued his passion for flying, but this time with his own wings. I miss you, my friend.

ND

“ I was very sad learning about Rick's passing, my sincerest condolences to Rick's family and friends.
Rick was a dear person who I've known for many years living at the Promenade. He will be missed by many of us long time tenants at the Promenade.
R.I.P Rick
XOXO

DP

Rick and I have been friends for many years , even before living in the same building for many of those. I always enjoyed catching up with him, when he was home from a flight and over the past several years, we would run into each other in Rehoboth Beach, also. Rick was a genuinely good and kind person. It was a pleasure to be in his company. He cared for other people. I will miss him, which saddens me and Eternal Rest grant unto my friend.

I've cut Rick's hair for several years. And would have cocktails out and about. He was a wonderful person with a great witt. I'll miss him terribly. Rest well my friend.
